

5/2/88 ?

Cecel Andrus

Governor Of The State Of Idaho

Sir;

Please find the enclosed letter I have addressed to Ted Schwindon, Governor of Montana. The conditions noted in that letter, were found to be the same, from Avery to the Mont Stata line, only I think there was much more garbage, and material pushed off of the Rail Road Right-of Way in Idaho than was pushed off in Mont. There was a lot of it that went into the streams, and a lot of poles left standing, or laying on the ground with wire still on it. My question is the same of you as of Ted Schwindon, why did the person who had the responsibility to clean up this mess, not do it. Why didn't some one in authority demand that it be cleaned up. Perhaps the States Attorney General, instead of spending so much time finding fault with Governor Andrus, could do the job he was elected to, specifically, protect the interest of the tax payers of the State Of Idaho. If the persons who were supposed to clean up this mess, the State will surely have to.

If you can lend any effort to seeing that this matter is taken care of, or at least find the cause of the oversight, I will be happy to vote for you once or even twice again.

Yours Truly

Thanking you in Advance I
